PROFILE

B.Sc Computer Science student at Nandha Arts and Science College (Autonomous), graduating in 2027, with a strong interest in software development and backend programming. Completed a one-month .NET internship at Nallas Technologies and built a College Management System using Django and SQL. Familiar with C, Java, Python, JavaScript, HTML5 and CSS3. Seeking a software or backend developer internship or trainee role.

PROFESSIONAL EXPERIENCE

.NET Full Stack Development Intern — Nallas Technologies India Pvt. Ltd.

Sep 2025 (1 Month)

Erode, Tamil Nadu

- Worked with C#, ASP.NET, HTML, CSS, JavaScript and SQL in an industry environment.
- Assisted in web application development tasks and learned how full-stack applications are structured.
- Followed professional software development workflows and completed assigned tasks within deadlines.
- Learned how frontend and backend components are integrated in a professional setting.

PROJECTS

College Management System

Ongoing

Web application built with Django and SQL for managing college academic operations

- Designed and developed a college management web application using Python (Django).
- Implemented student and academic management modules with SQL-backed data storage.
- Implemented backend functionality using Django with an SQL database.

OD Application Management System (Team Project)

Jul – Sep 2026

Role: Backend Developer & Team Contributor · Technologies: ASP.NET Core Web API, JavaScript

Live Demo: od-application-management-system.vercel.app · GitHub: github.com/Venkatraman06/OD-Application-Management-System

- Contributed to backend API development for the college On-Duty (OD) application system.
- Worked on backend functionality supporting the OD application and approval workflow (Student, Staff and HOD).
- The application supports individual and group OD requests, proof uploads, email notifications and printable reports.
